Summary

Computer Science graduate with hands on experience in Data Analysis, Business Intelligence, and Machine Learning. Skilled in SQL, Power BI, Excel, and Python, with practical experience building dashboards, analyzing business performance, automating reporting, and developing predictive analytics solutions. Passionate about transforming raw data into actionable insights that improve decision-making and business performance.

Experience

Instructor (Part-Time)

Jun 2026 – Present

Digital Egypt Cubs Initiative | EYouth

- Delivered programming courses for students within the Digital Egypt Cubs Initiative (MCIT).
- Designed practical coding exercises and guided students through Python programming fundamentals.
- Mentored students in problem-solving and software development best practices.

Machine Learning Intern

Jun 2026 – Aug 2026

FlyRank AI | Remote

- Prepared and cleaned datasets for machine learning models.
- Assisted in feature engineering, model training, and evaluation.
- Collaborated with the ML team to improve model performance and validation.

Data Entry Specialist

Mar 2025 - Apr 2026

Intercom Enterprises

- Managed large datasets while ensuring data accuracy and consistency.
- Automated repetitive Excel reporting tasks using advanced formulas.
- Maintained data integrity and supported business operations through accurate record management.

Projects

Supply Chain & Sales Analysis | *Power BI, SQL Server, Power Query, Excel*

- Built a Power BI dashboard analyzing supplier performance, revenue trends, and operational risks.
- Identified that 11% (\$150K) of revenue depended on a single supplier, highlighting concentration risk.
- Revealed a supplier coverage ratio of 2.65 vs. a target of 3.45 (-23%), supporting supplier diversification recommendations.

Healthcare Analysis | *Power BI, SQL Server, Power Query, Excel*

- Designed an end-to-end healthcare analytics dashboard using Power BI and Power Query.
- Identified a 48.4% decline in revenue while revealing disease prevalence across age groups.
- Delivered visual insights to support healthcare resource planning.

KMeans Customer Segmentation App | *Python, Streamlit, Scikit-learn, Pandas*

- Built an interactive Streamlit app using the K-Means algorithm for customer segmentation.
- Automated data preprocessing and clustering workflow, reducing manual analysis effort.
- Enabled efficient identification of customer segments and behavioral patterns.

AC Search 5Y - Time Series Forecasting | *Python, Pandas, Matplotlib, Prophet*

- Built a Prophet model to forecast AC search demand using 5 years of weekly data.
- Used Python, Pandas, Matplotlib, and Prophet for preprocessing, forecasting, and visualization.
- Identified seasonal peaks and long-term trends to support demand planning.

Education

Bachelor’s Degree in Computer Science
Faculty of Computers and Informatics, Zagazig University
Grade: Good

2020 – 2024

Certifications

- Google Data Analytics Professional Certificate
- IBM Data Analysis with Python
- HP LIFE Data Science & Analytics
- HP LIFE Agile Project Management
- HP LIFE Strategic Planning

Skills

Data Analytics: Excel, Power Query, Power BI, Tableau, SQL, SQL Server, Joins, Window Functions, CTEs, Views, Stored Procedures
Python: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-learn, Streamlit
Business Intelligence: KPI Analysis, ETL, Data Modeling, Data Cleaning
Version Control: Git, GitHub

Core Competencies

Data Analysis	Business Intelligence	Dashboard Development	Data Visualization
SQL Development	Machine Learning	Process Automation	KPI Reporting
Business Reporting	Process Improvement	Root Cause Analysis	Stakeholder Reporting

Languages

- **Arabic:** Native
- **English:** Professional Working Proficiency (B1)
